

LYNXUS CONTROLS

On/off Microwave Sensor

When used in conjunction with a Luminaire Interface Module this on/off Microwave Sensor allows feedback into your Smart Lighting System. Through one off set up in the Android App output from the sensor can switch any selected luminaires within the zone.

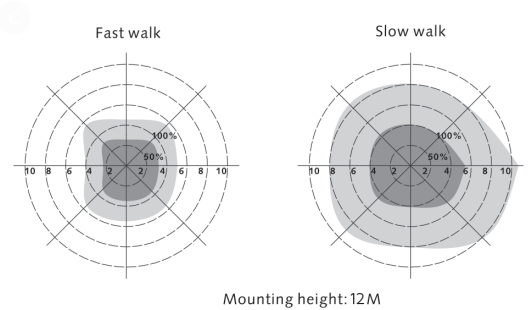

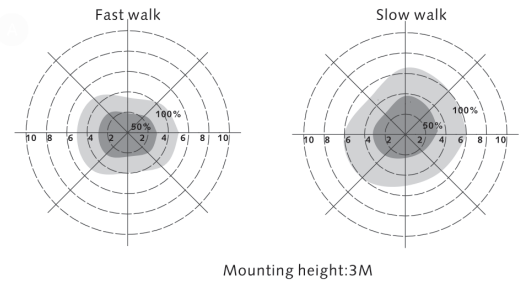

KEY DATA

Input Voltage AC	220-240V
Power Frequency	50Hz
Maximum Load	800W
Maximum Detection Distance	15m
Detection Angle	150°(wall mt) 360°(ceiling mt)
Operating Temp.	-15°c to +45°c
Duration	5s - 30min
Lux Levels	5lux - 150lux or Disabled
IP Rating	IP65
Dimensions	ø72 x 59mm
Warranty	3 Years

Part Number

NET-42-43-08
