

Integrated Management System Policy

NET LED Limited was established in 2009 to provide Low Energy LED Lighting Products for commercial lighting applications. NET LED continuously strive to provide leading technological solutions to lighting requirements within the UK marketplace to ensure compliance with all regulatory obligations for such products.

Quality and Environmental compliance are at the core of our processes to ensure we avoid importing risk to our clients. As such we have implemented and maintain an integrated management system compliant with the requirements of ISO9001: 2015 and ISO14001: 2015 and certificated by BSI.

As such we aim to consistently achieve:

1. Satisfaction of our customer requirements for products and GDPR obligations
2. Understanding of the needs and expectations of our interested parties
3. Monitoring of the effectiveness of Quality, Health, Safety & Environmental (QHSE) management
4. Working towards documented QHSE objectives
5. Maintaining the awareness and competence of our staff of their roles within our Integrated Management System
6. Effective management of any non-conforming products
7. Provision of a safe working environment and the prevention of accidents, pollution and environmental incidents
8. The provision and use of mechanical lifting and material handling equipment to minimise manual handling
9. Continual improvement of our Integrated Management System

Our policy is made available to all interested parties of the business via our website and is communicated to all staff.

The Managing Director has ultimate responsibility for our QHSE obligations which are then cascaded to all employees who have a responsibility of ensuring that QHSE compliance is embedded within the whole of the company.

A handwritten signature in black ink, appearing to read 'A. B. B. B.', is positioned above the 'Signed:' text.
