

NET LED Data Privacy Policy

The GDPR applies to all organisations within the UK and NET LED is required to communicate how we shall manage the limited personal information we hold on our customers and commercial contacts.

As a distributor of LED lighting products our CRM data is maintained to support the legitimate interests of our customers and ourselves in the provision and delivery of our service to the UK marketplace. Consent is in place within the GDP Regulations to hold and fairly process personal data where such legitimate interests exist.

The type of information we hold for our commercial contacts includes:

- Name
- Job title
- Work phone number
- Work email

This information will be accurately maintained and used only for the legitimate purposes of providing our products and services to customers and prospective customers.

As a business NET LED takes the utmost care to protect the data we hold and to ensure that it is only used for its intended purpose of supporting our existing customers, delivery of service to them or to market our services to prospective new customers. Access by unauthorised parties is strictly prohibited and prevented through the application of suitable and appropriate security restrictions.

NET LED will not share this data with 3rd parties unless they are an authorised member of our supply chain who are required to process data on our behalf to enable the delivery of our products, its storage, accuracy and retention within our business. NET LED will not sell or share this data with 3rd parties seeking to provide other services.

Your rights under the GDPR are not affected by our processing of this data however should you wish to contact us with any requests for information please address your communication to support@netled.co.uk.

Should the request be required to be handled by the organisation with whom the original consent was established we shall notify you of this.
